# BENJAMIN SOLT

## FRONT END DEVELOPER

## PROFESSIONAL PROFILE

---

Creative and versatile front-end developer with a strong background in artwork, web design, and app development. Proficient in translating concepts into visually stunning and user-friendly interfaces. Passionate about blending aesthetics with functionality to create engaging digital experiences.

## WORK EXPERIENCE

---

### Musicivic - Consultant March 2023 - Present

- Created and reformatted WordPress websites to enhance visual appeal, functionality, and user experience.
- Implemented new features and customized themes, plugins, and templates to meet client requirements.
- Built wireframes to visualize and plan the structure, layout, and user flow of websites.
- Collaborated with designers, back-end developers, and stakeholders to translate design concepts into functional web pages.

### Inertia Marketing - Digital Production May 2022 - November 2022

- Designed and developed visually appealing websites and landing pages for clients using WordPress, ensuring a seamless user experience and adherence to brand guidelines.
- Implemented HTML email marketing promotions, crafting engaging and responsive email templates that effectively communicated key messages and drove customer engagement.

### Metro eSports - STEM Instructor October 2021 - June 2022

- Instructed students in foundational programming concepts, emphasizing JavaScript as a core language for web development.
- Monitored student progress, provided constructive feedback, and addressed individual learning needs to ensure maximum comprehension and skill development.

### GROA - Front End Developer February 2020 - April 2020

- Developed a movie recommendation app that utilized user's prior movie ratings to suggest personalized movie recommendations, enhancing user engagement and satisfaction.
- Designed and implemented the authorization, login, and display layout of the movie page, ensuring a seamless and intuitive user experience.
